

Community & School-Based Education

the green worm offers a variety of educational presentations for children and adults of all ages. Presentations can be tailored to connect with lesson plans or related topics of discussion. For scheduling, please contact Sarah at 913.449.0268 or thegreenwormkc@gmail.com.

Worms Eat our Trash! (Pre-K to 5th Grade)— Participants will learn introductory information about composting; how worms turn our trash into healthy soil for happy plants; demonstration of how composting with a worm bin works! *30 minutes*

Recycling our Waste! (6th-8th Grade)— Participants will learn about the process and benefits of composting; how composting connects to other environmental issues in our community; demonstrations of an aerobic (worm composting bin) and anaerobic process (bokashi) for recycling food waste and building healthy soil. *30-45 minutes*

Waste Solutions: A Shared Responsibility (9th Grade— Adults)— Participants will learn about the process and benefits of composting; connections between composting and broader environmental issues; household- and community-based solutions for recycling our waste and restoring soil for healthy gardens. *45-60 minutes*

Presentation Fees	<i>Presentation only</i>	<i>Presentation & Worm Composting Bin Set-up*</i>
Worms Eat our Trash!	\$50	\$95
Recycling our Waste!	\$60	\$105
Waste Solutions: A Shared Responsibility	\$70	\$115

* Extend the educational experience and recycle food and paper waste with your very own worm composting bin—ready to go with 1 pound of red wiggler worms, starter supply of food/bedding, and instructions.
